

TACOMA • NOVEMBER BALLOT

VOTE NO

OPPOSE *Measure 1*

2023's Measure 1 had to be rewritten in 2025 due to negative impacts on affordable housing. The authors are back with a new measure that gives them the power they've always wanted.

WHY YOU SHOULD VOTE NO ON INITIATIVE *Measure 1*

Understand the Impact on Tacoma.

\$10 Million Underfunded Program.

Measure 1 requires the City to build and staff the **most complex rental registry** ever proposed in Washington state — an estimated \$10 million program per year.

Tacoma is already dealing with a \$40 Million budget deficit.

That money and those staff come out of the same city budget that pays for **firefighters, police, and street repair.**

Don't Support Another Failed Experiment.

The last time **TACOMA FOR ALL** passed a ballot measure, it had to be rewritten two years later because it was **hurting the very residents it was supposed to help.**

Now they're back with new claims of how their policy will help the residents of Tacoma.

They were **wrong last time**, reject their ideas this time.

60,000 Homes Needed. 0 Built by This Measure.

Tacoma's Comprehensive Plan calls for 60,000 additional housing units by 2050.

In markets where housing supply has grown renters have more options, more deals, and more competition for their business.

Tacoma's **permit numbers fell 56%** from 2022 to 2025. Measure 1 will guarantee this number keeps declining.
